REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

As indicated in the Advisory Action:

As noted previously, [products] comprising SEQ ID NOS: 1-5 were not found to be reasonably taught or suggested by the prior art of record, based on the ABSS sequence search of the relevant databases for SEQ ID NOS: 1-5.

[Note: It was requested that Applicant amend claim 2 to be in Markush format (selected from the group consisting of X, Y, and Z). However, this is not needed, as Applicant has claimed the peptides in the alternative (X, Y, or Z), which is acceptable.]

Restriction Requirement-Finality Maintained

The Finality of the Restriction Requirement is maintained, as a search/examination of the methods of use were deemed to raise issues under 35 USC 112 1st Enablement, requiring a new search, raise new issues that would require further consideration and/or search (e.g. search of related compounds for supporting evidence that the allowed peptides could treat ANY cancer or ANY condition "associated with" neovascularization; search of whether the art recognizes that any single peptide can treat ANY cancer or ANY condition "associated with" neovascularization).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
